

## EU'S CONTRIBUTION IN COMBATING DISCRIMINATION

Smiti Iyer ✓  
@ismitiyer

Following its founding values of respect, tolerance, unity and integrity, as well as its respect for diversity, nations, people & state outside Europe, the EU has also played a crucial role in combating anti-muslim hatred as well as combating anti-semitism of 2021-2030, which is taking action for violence against the Jewish communities.

In order to ensure proper functioning of these plans and to become a direct contact between the racialized communities, coordinators are appointed.

The European Union has taken these gradual steps considering the continent's historical and cultural aspects.

Smiti Iyer ✓  
@ismitiyer

Much of the Europe's history is said to be originated from Asia. The birth place of Europa and Lord Jesus Christ is from the Asian Continent. Europa was born in Lebanon and Lord Jesus Christ was born in Jerusalem, which is the present capital of the state of Israel. Both these countries belong to West Asia.

The abduction of Europa by the Greek God Zeus, where he transforms himself into a white bull as well as the abduction of Helen of Troy by the Trojan Prince of Asia Minor, Are some of the classic cases of cross-fertilizations between the two continents of Europe and Asia.

The religion of Christianity refers to a small movement of Jews in the 1st Century. It can also be said that this religion began from the wellsprings of Judaism. Jewish communities can be seen all over the world in contemporary times. The Ashkenardi Jews from the Europe, the Sephardi Jews from the North Africa and the Baghdadi Jews from West Asia are some examples.

If we see it through the cultural lens, Human Rights plays a valuable role in placing importance on basic individuals of the society. Considering it as another dimension of European values, these actions of EU were also influenced by the Declaration of UDHR.

Smiti Iyer ✓  
@ismitiyer

In the 20th Century, many Jewish communities became prosper economically. In the US, it is the Jews who are the big businessmen making major contributions in the improvement of the infrastructure of the country. The establishment of Sasoon Hospital in Pune, India by a Jewish merchant is another example.

Smiti Iyer   
@ismitiyer

The UDHR's Declaration devises fundamental policies with respect to human rights that should be universally protected regardless of nationality, gender, race or religion. In the Middle East, the EU along with its member states emphasize on creating meaningful opportunities for Arab and Jewish students to engage positively and develop a common language of trust among themselves

Despite the historical commonalities and Europe's respect for other culture, there has been a negligence in proper functioning and implementation of these policies.

From the above, we can clearly see that much of the European Cultures are ethnically homogeneous and are not welcoming towards the other cultures. This can be seen due to their struggle of bringing back Christianity from the communist regime in history. The religious war among the Crusades and the war between Byzantine and Ottoman Empire are some instances.

The narrative of Civilizing Mission or 'Mission Civilisatrice' among the public, still consider certain practices are civilized while the others as uncivilized. Many cultures in the West; like eating food with cutlery while sitting on a chair are considered as civilized whereas the cultures in the East, especially Asian cultures of sitting on a floor eating food with hands are considered as uncivilized.

Other drawbacks can be the rise of Islamophobia among the EU Countries due to the ongoing war of Israel-Palestine in 2023. Viktor Orbán, one of the representative of V4 Block, makes a rhetoric that the advent of Muslims will corrupt the European Regime and rape the women of the continent. The Holocaust by Adolf Hitler has led to the creation of a separate state for Jews, which is now known as Israel, is still contested by CSOs due to the ongoing war of 2023.

Therefore, there is an urge for the amendments of these actions or policies, including its nuanced monitoring of its functioning and implementation across the Europe and the world.
